Industrial Visit Report

Wilo Mather and Platt Pumps Ltd.

Advisors: -

Dr. Bipin Bankar (Director, JIMS)

Dr. Sudarshan Pawar (HOD, MBA)

Event Details: -

Event Name: - Industrial Visit

Event Date: - 25/11/2023

Venue: - Wilo Mather and Platt Pumps Ltd, Near Shirwal, Pune.

Target Audience: - 30 MBA II yr students

Visit Coordinator: - Prof. Saily Talodhikar

Accompanying Faculties: - Dr. Gorakh Wakhare, Dr. Sushil Sarangi, Dr. Anisha Mahindrakar

Mode of transportation: - Institute Bus

About Wilo Industries: -

JSPM's Jayawant Institute of Management Studies had organized an Industrial Visit for the students of MBA-II. Exposure to a multinational technology group like Wilo Pumps Ltd. offered students insights into industry practices, standards, and the application of technology in the production of pumps and pump systems.

Objectives of Industry visit are as: -

1. Exposure to Industry Practices:

- Gain firsthand exposure to the day-to-day operations and functioning of a multinational technology group in the field of pumps and pump systems.

- Understand how theoretical knowledge is applied in practical scenarios within the industrial sector.

2. Understanding Manufacturing Processes:

- Witness the manufacturing processes involved in the production of pumps and related systems.
- Learn about quality control measures and the adherence to industry standards in manufacturing.

3. Insight into Research and Development:

- Explore the company's research and development facilities to understand how innovation is integrated into product development.
- Gain insights into the technological advancements and continuous improvement initiatives in the industry.

4. Interaction with Industry Experts:

- Engage in discussions and interactions with professionals, engineers, and experts from Wilo Mather and Platt Pumps Ltd.
- Seek guidance and advice on career paths, industry trends, and the skills required for success in the field.

5. Awareness of Environmental and Sustainability Practices:

- Learn about the company's initiatives and practices related to Water management and environmental sustainability in the design, production, and use of pumps.
- Understand the role of the industry in addressing environmental concerns.

Learning Outcomes:

1. Application of Classroom Knowledge:

- Relate theoretical concepts learned in the classroom to real-world applications in the pump manufacturing industry.

2. Enhanced Technical Understanding:

- Develop a deeper understanding of the technical aspects involved in the design, production, and maintenance of pumps and pump systems.

3. Career Insight:

- Gain insights into potential career paths within the pump manufacturing industry.
- Understand the skills and competencies required for success in the field.

4. Professional Networking:

- Establish connections with industry professionals, potentially leading to mentorship or internship opportunities.

5. Problem-Solving Skills:

- Witness real-world problem-solving approaches within the industry and understand how challenges are addressed in a practical setting.

6. Motivation for Further Learning:

- Inspire students to pursue further learning and specialization in areas related to pump technology and industrial processes.

By aligning the visit with these objectives and learning outcomes, students can derive maximum educational value from the industry visit to Wilo Mather and Platt Pumps Ltd.
