Declaration

Experiential Learning is the process of learning by doing. By engaging students in hands-on experiences and reflection, they are better able to connect theories and knowledge learned in the classroom to real-world situations. Experiential learning activities can include, but are not limited to, hands-on laboratory experiments, internships, practicum, field exercises, projects, research and studio performances. Well-planned, supervised and assessed experiential learning programs can stimulate academic inquiry by promoting interdisciplinary learning, civic engagement, career development, cultural awareness, leadership, and other professional and intellectual skills.

In order to strengthen the understanding of fundamentals through effective application of the courses learnt, students have to complete following courses. Details of courses that include experiential learning through project work/field work/internship:

Sr. No.	Program	Course	Semester
1	MCA	Mini Project	I, II, III
2	MCA	Project	IV
3	MBA	Business Research Methods	I
4	MBA	Human Resource Management	II
5	MBA	Summer Internship Project	III
