Student Council & Committees.

The establishment of student councils plays an integral and important role in the student community. Student councils provide a representative structure through which students can debate issues of concern and undertake initiatives of benefit to the college. It is important that they be given the opportunity to express their views on issues of concern to them in the college. It is equally important that they are listened to and encouraged to take an active part in promoting the aims and objectives of the college. The guidelines mentioned in this manual are intended to provide practical guidance to student council members in the establishment and operation of the student council.

What is a Student Council?

A Student Council is a representative structure through which students in the college can become involved in the affairs of the college, working in partnership with the management, staff and students for the benefit of the college and its students

The role of the Student Council

A Student Council will set its own objectives. Some general objectives could include:

- ❖ To enhance communication between students, management and staff
- ❖ To promote an environment conducive to educational and personal development
- ❖ To promote friendship and respect among pupils.
- ❖ To support the management and staff in the development of the college.
- ❖ To represent the views of the students on matters of general concern to them.

Key functions of Student Council:

The functions and activities of a Student Council should support the aims and objectives of the Council and promote the development of the college and the welfare of its students. In planning and undertaking activities during the course of the college year, the Council should:

- Work closely with the management, teachers and students,
- Consult regularly with students in the college, and
- Involve as many students as possible in the activities of the Council.

There is a wide range of activities of benefit to the college community which a Student Council may wish to undertake, some of which are outlined below:

Representing the views of the student body to the college management

This should be one of the fundamental aims of every Council. It involves talking and listening to the student body, considering their views and concerns, and discussing these with the college management on behalf of the students.

Promoting good communications within the college

Improving communication within the college community is a shared responsibility and a Student Council can contribute to this process. Making presentations at staff meetings to keep staff informed of activities, keeping a Student Council notice-board or organizing a regular newsletter are just some ways the Council can communicate with the students and staff.

Supporting the educational development and progress of students

The Student Council can contribute to the learning environment for students in the college by, for example, setting up study groups for students in exam classes or homework clubs, or organizing lunch time activities such as language clubs.

Assisting with induction and/or mentoring for new first year students

Starting college life is a challenging new experience for 1st Year students. During the mentoring programme senior students help new students to find their feet and can help their integration into the college community.

Contributing to the development of college policy.

The Student Council can actively contribute to the development of college policy in a wide range of areas such as bullying, uniform requirements, behaviour code and extra-curricular activities. The Council could form sub-committees to consider individual policy issues.

Assisting in college sports and cultural activities (Synergy)

Student Councils can assist in organising and developing sports and cultural activities within the college, including, for example, sports days and drama or musical events. Assisting with or organising fund-raising events for charity Student Councils can organise events both within the college and involving the wider community, for the purposes of raising money for designated charities.

Bridging with Student Councils in other colleges

It may be useful for a Student Council to bridge with Student Councils in other colleges, particularly in the organisation of sporting and cultural activities and when fund-raising for charity. An existing Student Council could have a useful role in helping and advising a newly formed Student Council in another college
